Dear Mr. Day and Mr. Terril:

Your notice to conduct mining related operations on your claims in T. 13 S., R. 11 W., Section 21, has been received and accepted by this office. Your notice has been assigned case file number UT-055-01-04N. Please use this number in any future correspondence concerning this notice.

Exploration only
This acceptance is limited to your drilling proposal. We will need to prepare an Environmental Assessment (EA) before we can approve your mining proposal. We strive to complete the EA process in 30 days; however, we have had some recent changes in personnel. This means we may need an additional 60 days to complete the processing of your mine proposal. In order to expedite the review process, I suggest that we meet in Fillmore at your earliest convenience to discuss this situation.

If you change your operation from what is described in your notice, please contact this office prior to the change. If your operations extend for more than one year, please advise this office of the status of your mining related activity on the anniversary date of your notice.

A copy of your notice has been sent to the Utah Division of Oil, Gas and Mining (DOGM); therefore, you will not have to file this notice with DOGM. However, reclamation under this notice is required to conform to the standards of the Utah Mined Land Reclamation Act. Also, all mining claimants and operators that plan to use, store, or divert water are required by Utah statute to notify the Utah Department of Water Resources at:

1636 West North Temple
Salt Lake City, UT 84180-1203

As required by 43 CFR 3809, Surface Management Regulations, reasonable measures must be taken to prevent unnecessary or undue degradation of public lands during your operations. Please notify this office upon completion of operations and reclamation, so an inspection may be conducted on the site.
